Hey There! Can we help you with anything?

Are the all new original PK grills made in the usa?

Please update your info

PK Support Team

Thanks for the chat! We'll be with you soon!

Thank you for your interest in PK Grills! PK products are manufactured both domestically and internationally. Here is a more specific look at our grills. PK Original : The capsule for the PK Original is poured at a domestic commercial foundry. Other parts are sourced domestically and internationally, and the grills are assembled, packed and shipped from our Little Rock Facility. PK360, PKGO, and New Original PK (includes Aaron Franklin Edition): The PK360, PKGO and New Original PK's are designed and engineered in the USA, manufactured in China and shipped across the world from our Little Rock Facility. I think you'll find that most people rate our products very high and our customer satisfaction is exceptionally high. I'm confident that you will be impressed with the quality of our grills and if you are not, we will be here. Our 20-year warranty is one of the very best in the industry. Odds are your grill will last much longer than 20 years and provide many great memories with friends and family - we know this from our own experience and because our customers consistently tell us stories of their decades old PK Grills.

So the answer is no. "manufactured in China ". That's too bad.
